OUR SEASON IDENTITY

HOW WE PLAY

Three priorities. One team. Every possession.

1. TAKE CARE OF THE BALL

Strong dribbles. Easy passes. Pass fakes. Jump stops and pivots.

2. WORK TOGETHER

Pass, cut, fill, flash. Help the ball. Keep the middle open.

3. SCORE THE BASKETBALL

Get it to the middle. Layup first. Short open jumper. Crash!

PRIORITY 1 • THE DOUBLE CLICK

TAKE CARE OF THE BALL

WHY: Every possession gives us a chance to score.

DO

- ✓ Make the easy pass — even to a teammate nearby.
- ✓ Look to the middle first.
- ✓ Fake a pass to make a pass.
- ✓ Attack open space with a strong dribble.
- ✓ Use your pivot foot to protect the ball.

DON'T

- ✕ Throw long, looping passes.
- ✕ Telegraph passes or stare at your target.
- ✕ Get trapped on the sideline or baseline.
- ✕ Stand still holding the basketball.

BE STRONG. BE SMART. BE CALM.

PRIORITY 2 • THE DOUBLE CLICK

WORK TOGETHER

WHY: Movement gives teammates options and opens the middle.

IN TRANSITION: GO!

Push the ball up the middle. Sprint ahead. Fill open spaces.

IN OUR SET: PASS • CUT • FILL

Point passes and cuts. Opposite wing fills the top. Wings help and attack.

FLASH, CATCH OR CLEAR

High-post rover flashes as an easy middle outlet. No pass? Clear the lane.

FIND THE DUNK SPOT

Baseline rover moves between dunk spots, ready for layups and rebounds.

PASS AND MOVE. HELP YOUR TEAMMATE.

PRIORITY 3 • THE DOUBLE CLICK

SCORE THE BASKETBALL

WHY: We move the ball to create GREAT shots, not just make passes.

1. GET IT INTO THE MIDDLE

A wing attacks middle or the big flashes and catches. The defense must react.

2. LAYUP FIRST

Find the dunk spot. Cut to the basket. Pass to an open teammate near the rim.

3. TAKE THE SHORT OPEN SHOT

If the layup is covered, an open short jumper is a good shot.

4. CRASH THE BOARDS

Three attack the glass. One finds the long rebound. One gets back.

WE'RE PASSING TO GET A LAYUP!

GET IT TO THE MIDDLE → GET A GREAT SHOT

OUR OFFENSE • JOB DESCRIPTIONS

KNOW YOUR SPOT

Our 1–2–2: one point, two wings, two different inside jobs.

POINT GUARD

Look middle first → pass → cut through. Find the safe option.

BALL-SIDE WING

Catch, face, attack middle. Look for a layup or easy pass.

OPPOSITE WING

Fill the top when point cuts. Be ready to reverse or attack.

HIGH-POST ROVER

Flash to free-throw line. Catch and face OR clear the lane.

BASELINE ROVER

Move between dunk spots. Catch, finish and rebound.

EVERY SHOT: CRASH THE BOARDS!
